Disclaimer

The Telecommunications Regulatory Authority (TRA - Oman) continues to ensure accuracy of the information provided in this report. However, TRA shall not be liable for any loss, damage, cost or expense whether direct, indirect, or consequential, incurred by, or arising by reasons of, any person using or relying on this information and whether caused by reason of any inaccuracy, error, omission or misinterpretation or otherwise. The users of this information are advised to perform their own due-diligence to assess accuracy and relevance of the information and use it at their own responsibility.

Foreword

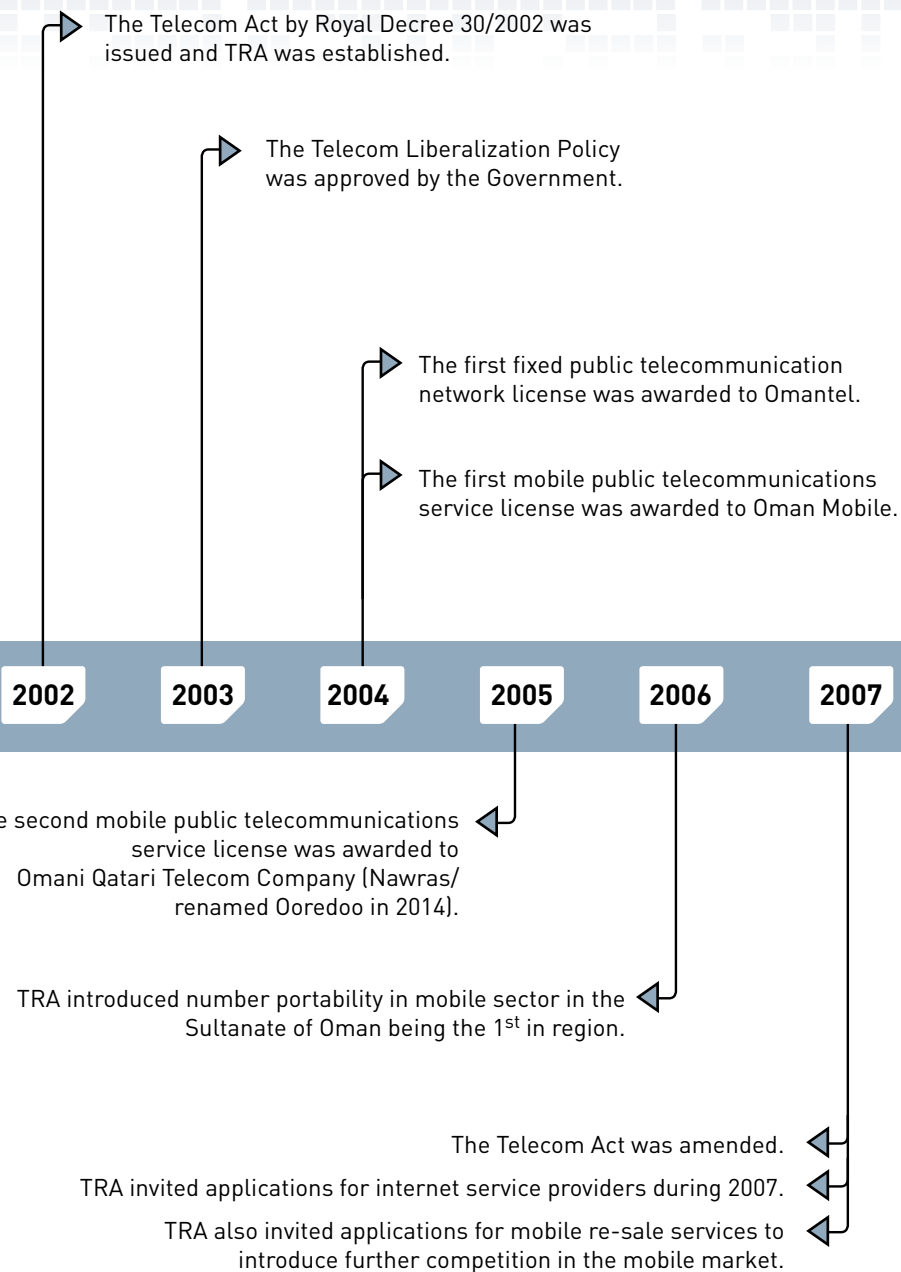

It is my profound pleasure to present the 2nd publication of the Telecom Sector Indicators report of the Sultanate of Oman. This publication covers 5 years period from 2010 to 2014 summarizing the main telecom sector indicators. The TRA has been regularly publishing Telecom Sector Indicators on quarterly basis to serve a variety of users and stakeholders including investors and financial advisors. Moreover, TRA published a comprehensive 5 year compendium in 2012 covering the period of 2007 to 2011. The first publication was received well by users in the industry. Encouraged by the user response, we are happy to present the 2nd edition of "5 years at a glance report". This report provides an overview of telecom sector development in figures and charts during the last 5 years.

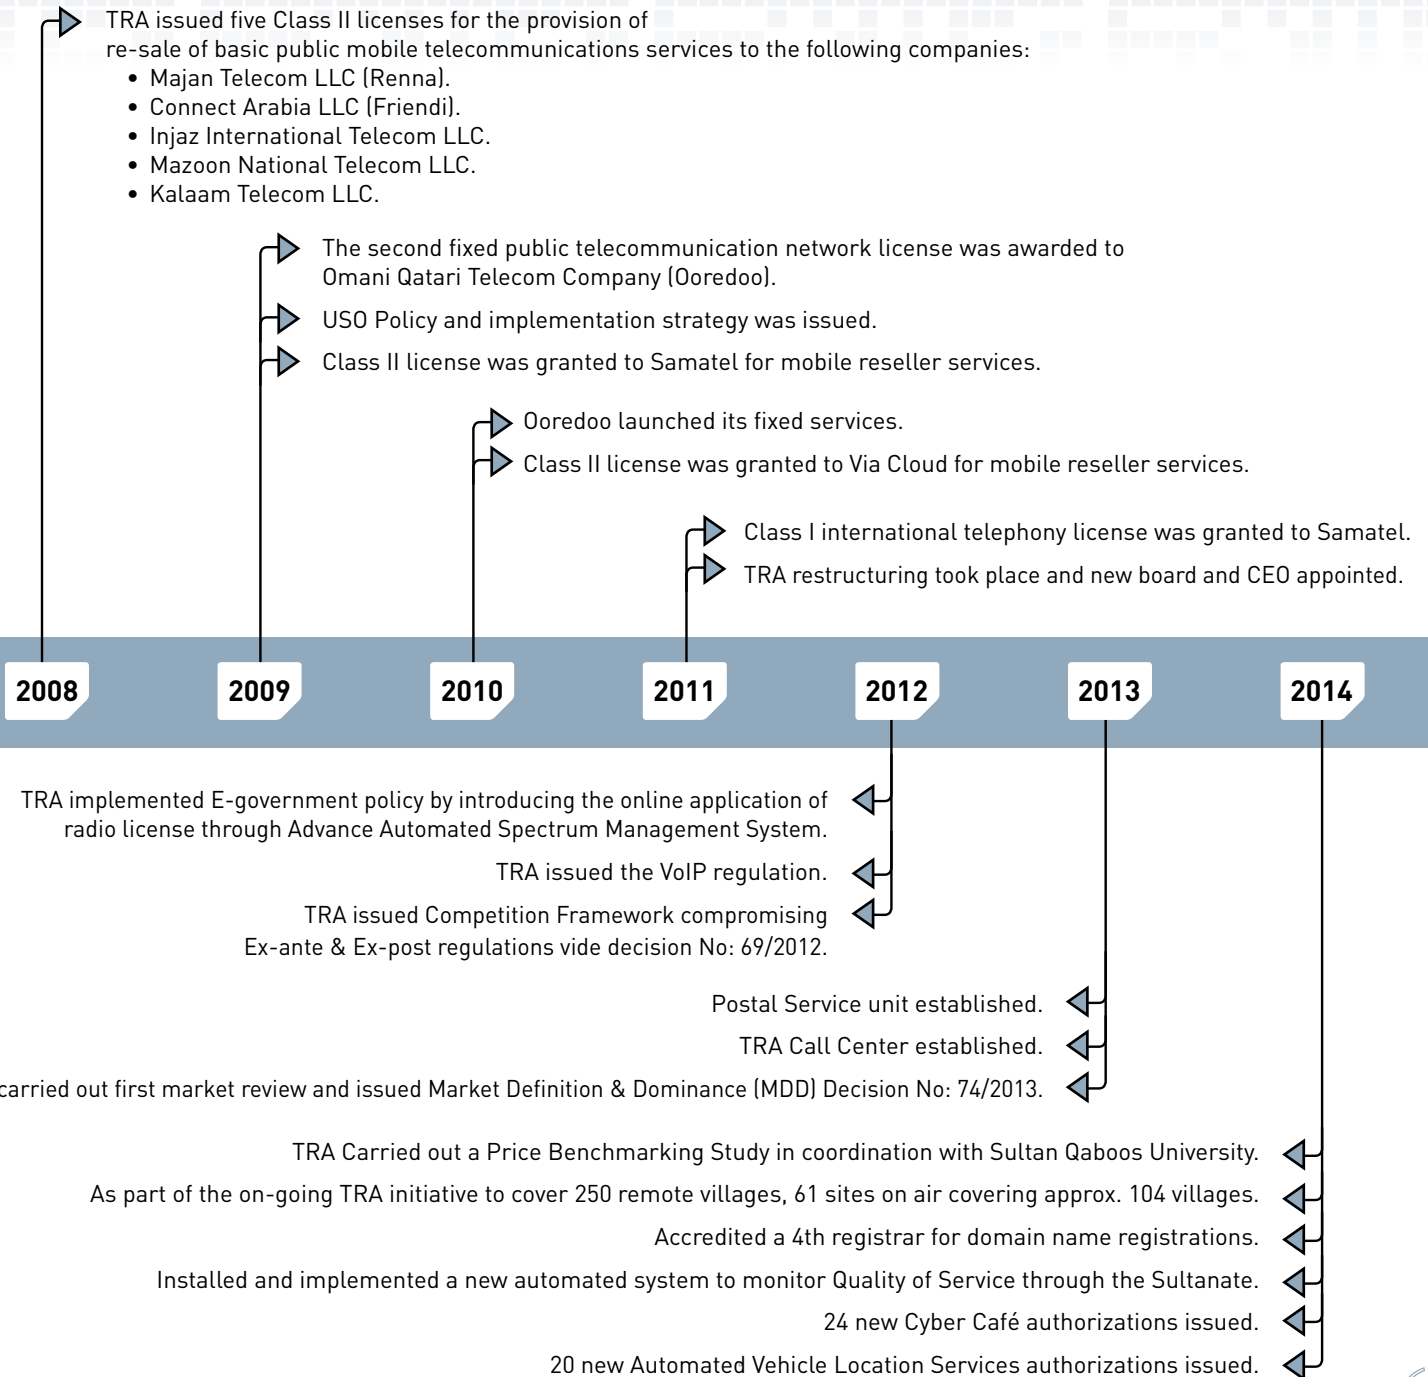

I am confident that the information contained in this report will be useful to the industry analysts, investors, academia and the general public. Your feedback is of immense importance for us, therefore, comments and suggestions are most welcome.

Dr. Hamad Bin Salem Al-Rawahi
Executive President

Major Milestones of Telecom Sector

Overall Economic Outlook

Overall Economic Outlook

Indicator ¹	2010	2011	2012	2013	2014
Population ²	2,773,479	3,295,000	3,623,001	3,855,206	3,992,893
Number of Households ³	402,286	402,286	402,286	402,286	402,286
Consumer Price Index (CPI)	93.4	97.2	100	101.9	102.3
Inflation Rate	3.32%	4.07%	2.88%	1.90%	0.4%
Total GDP (Millions RO)	22,773	26,731	29,798	30,061	31,500⁴
GDP – Annual Growth rate	21.20%	17.4%	11.5%	0.9%	NA
Post & Telecommunication - % of Contribution to GDP	1.80%	1.60%	1.37%	1.45%	NA

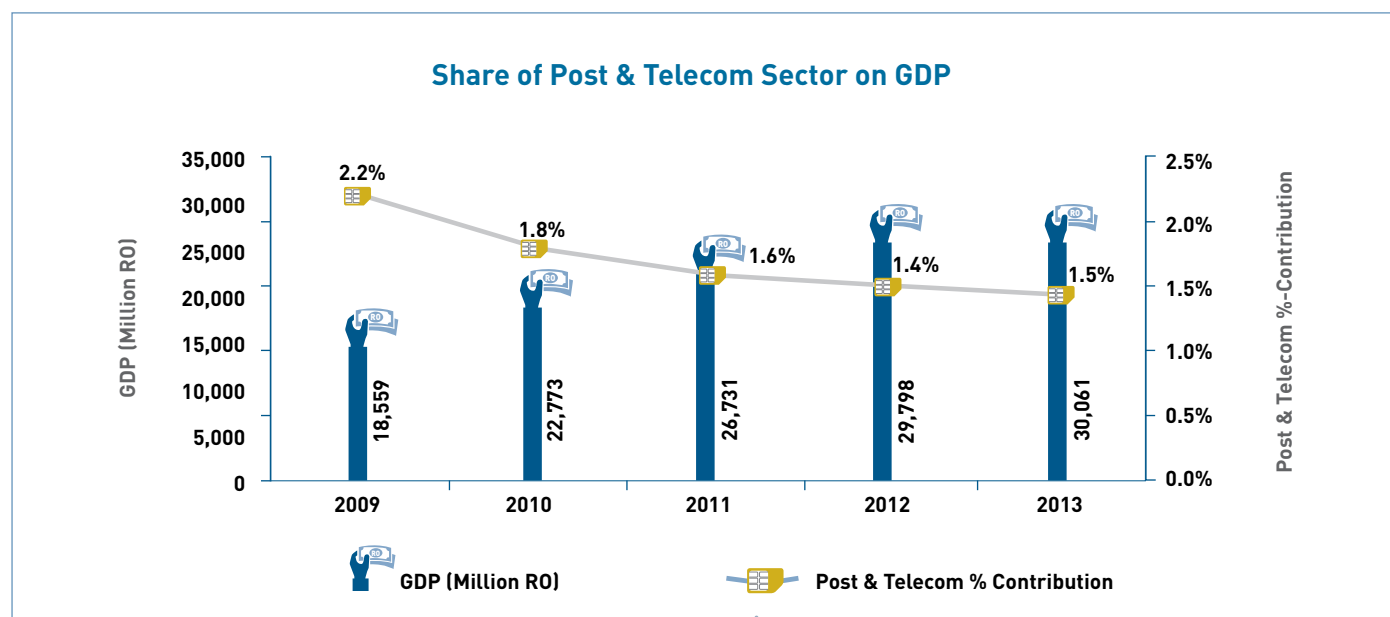

¹Economic indicators 2010-2013 as per the latest publication- Statistical year book-2013 published by NCSI.

²The population figures are as per the Statistical year book-2013 and the latest Statistics Bulletin-February 2015, published by NCSI.

³The households is as per the 2010 National Census.

⁴The 2014 GDP is provisional.

Note: It is important to highlight that subscriber's penetration rates reported in this publication are calculated based on the above population figures, which results in different penetration rates from the previous publications of TRA due to revision of population figures by NCSI in their Statistical year book-2013.

Distribution of Fixed Broadband Subscription by Internet Speed, 2014

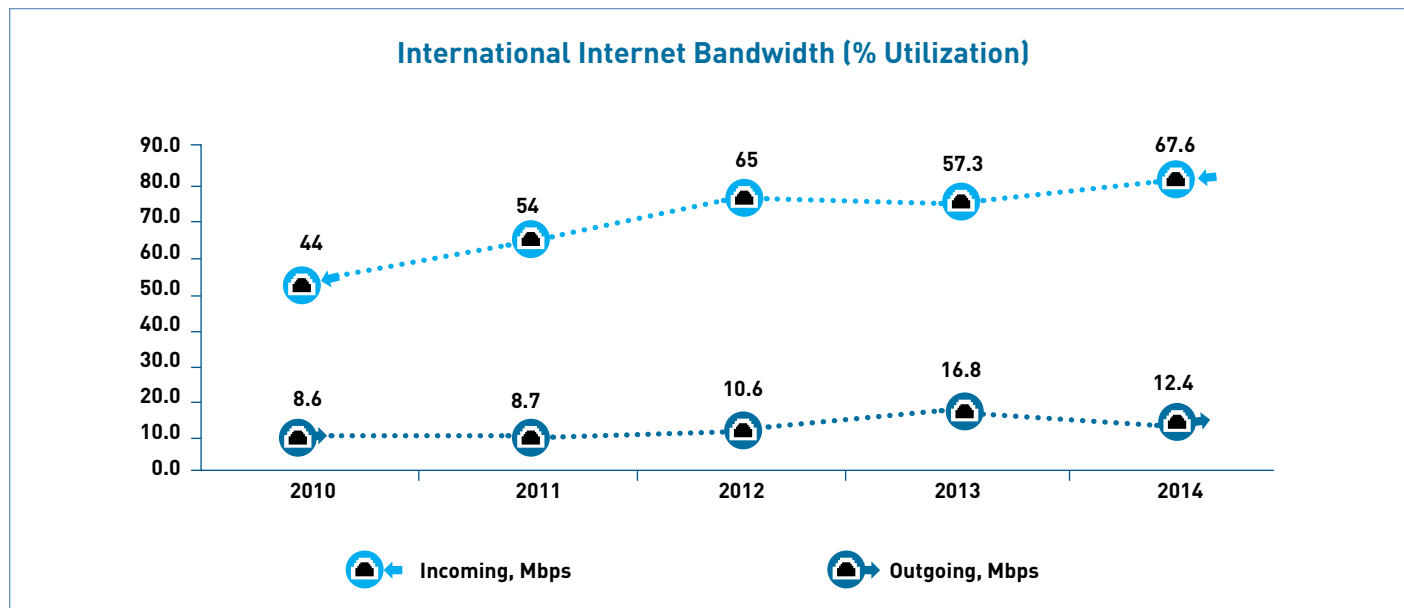

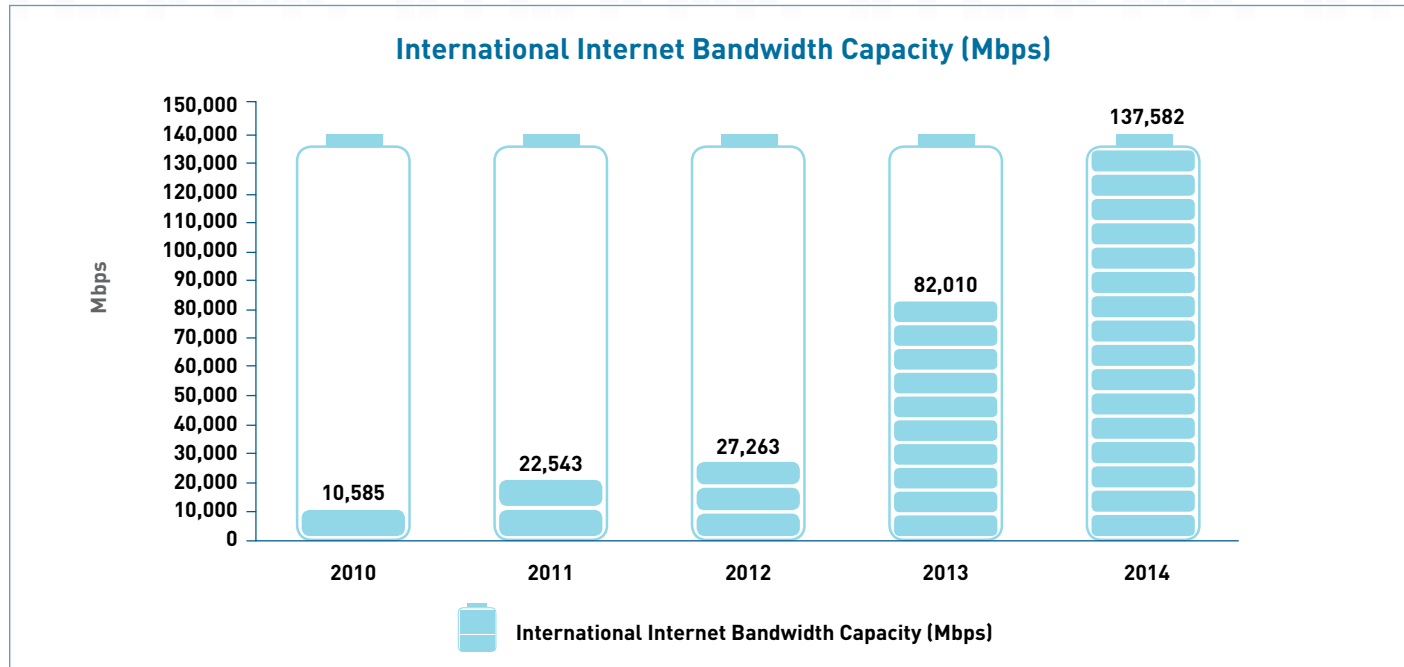

¹Active Mobile broadband Subscribers are calculated as the sum of (1&2) :

1. Dedicated mobile broadband subscriptions: (All subscribers who have subscribed to a data plan which has subscription charge and fixed period of subscription irrespective of the subscription duration (daily, weekly or monthly plans)).
2. Standard Mobile Broadband Subscriptions: (subscribers who use 3G broadband service at least once in a month without subscribing to a fixed duration plan. These are generally called "pay as you go" (PAYG) users).
